

SAP COUNTRY HEAD VISITS GLOBAL INSTITUTES

Mr. Rahul Sachdev, Head, SAP University Alliances, SAP India Pvt. Ltd visited Global Institutes to explore possibilities of a tie – up with the institute. Mr. Sachdev held extensive discussions with Vice – Chairman Dr. Akashdeep Singh on the universal application of SAP as an efficiency mechanism for better productivity adopted by majority of the well – known names world over. A Concern of **SAP SE** (Systems, Applications & Products in Data Processing), a German Multinational Software Corporation that makes enterprise software to manage business operations and customer relations, SAP Labs India researches, designs and delivers leading – edge software applications that enhance and extend SAP solutions and is recognized as one of the prime contributors to innovation, quality and service. Mr. Sachdev pointed out that SAP training at the institute level will open up myriad employment opportunities for the institute graduates as companies will find them job–ready with the acquisition of SAP skills which are much sought after these days of highly competitive business world. Professionally equipped with SAP related skills, the work force creates an environment of innovation, efficiency and reliability. Mr. Sachdev had two tailor–mode programmes, one each for the training of the faculty and the other for the students. Although, the fee of the training programme was a little on the higher side in the Indian context in the views of Dr. Akashdeep Singh, Mr Sachdev argued that the benefits to be reaped by the students would be enormous because their job opportunities would increase manifold since SAP solutions are in use in all the major MNCs operating in India and world over. But keeping in mind the economic condition of the student community in general, Mr. Rahul proposed a free training module for the faculty so that the SAP trained teachers could further impart training to the students as “Value-addition” course completed along with normal studies. The Vice Chairman appreciated the student-oriented initiatives by Mr Rahul Sachdev, showed keen interest in the tie-up and asked for further details of the programme for its in-depth study.
