SUPPORTING DOCUMENT FOR 2.6.2
Attainment of Programme Outcomes and Course Outcomes are Evaluated by the Institution

PO Attainment

The learning outcomes govern the strategies for teaching, learning and evaluation. It includes monitoring of the student through assistance. If student show inabilities to achieve the required learning outcome they are provided with remedial teaching and simplified reading materials. Substitute methods are also implemented in certain cases like learning with the help of diagrams or by writing equations, summarizing the chapter.

For the COs attainment each course was calculated based on the assessment process which includes:

Step 1: The IKGPTU formulates COs for their respective subjects every semester. If the COs are not available from the university then faculty formulates the COs individually which are later verified by respective HODs.

Step 2: External and internal examinations marks were distributed based on total marks as per the university curriculum.

Step 3: Attainment of each CO through external and internal examination as well as exit surveys.

POs and PSOs attainment:

Step 1: The course outcomes for all courses were mapped with defined POs and PSOs with correlation levels -, 1, 2, and 3.

Step 2: Attainment of each COs for all courses was calculated as described above.

Step 3: Attainment values of respective COs were inserted against their correlated POs and PSOs. Average values for each PO/PSO were considered as final attainment for the respective course.

Step 4: Similarly, attainment values of COs with each correlated POs and PSOs have been calculated for all courses.

Step 5: Total indirect assessment was based on various surveys for POs and PSOs attainments like Course Exit Survey.

Step 6: Final Attainment of POs and PSOs were derived from two components: Direct attainment: Obtained by taking averages of all CO-PO and CO-PSO attainment matrices defined for all courses. Indirect attainment: Obtained from attainment values POs and PSOs of surveys

including Graduate exit, Alumni, and Parents feedback. Final attainments were calculated by considering 70% of direct assessment & 30% of the indirect assessment.

Add On/Certificate Courses

Students registered for the Add-on/Certificate courses provided by our establishment are assessed by the institute itself. During the same period, observation as well as remarks of undergraduate's knowledge and skills against quantifiable course outcomes are evaluated throughout the year.
