MOTIVATIONAL LECTURE

Motivational Lecture was delivered by Mr. Rajesh Talwar in the premises of GGI, Amritsar on Professional Development both for faculty and students. Intrinsic and extrinsic motivation is the two primary types of motivation described by educational psychology. Intrinsic motivation stems from a desire to learn a topic for a variety of reasons, including self-fulfillment, enjoyment, and mastery of the subject. Extrinsic motivation, on the other hand, is the desire to perform and succeed in order to achieve a certain objective or outcome. Extrinsically driven students & faculties are those who seem to truly embrace their work and take a genuine interest in it. The lecture was really powerful and moved students & faculties at large.

GUEST LECTURE ON STRESS MANAGEMENT

Students were guided and motivated to plan and manage their academics. He highlighted how stress is a natural part of life, as well as its causes and consequences on the body and mind. He went over the tactics for properly managing stress in great detail. He also swore to the pupils that they would not take drastic measures such as suicide. The event drew a total of 223 students and faculty members. The faculties and students both praised the programme.

WEBINAR ON IMPACTS OF COVID-19

Regular webinars on the educational aspects of the COVID-19 epidemic are being planned in GGI, Amritsar campus. These webinars provide an opportunity for education stakeholders to share best practises, ideas, and resources related to country responses to school closures and other difficulties caused by the global health crisis. The webinars cover a variety of topics with the goal of ensuring that all students return to college & universities as soon as they reopen.

Global Group of Institutes

(Approved by AICTE, PCI, and Affiliated to IKGPTU, Jalandhar)

AWARENESS SESSION ON BUSINESS PLAN AND ENTREPRENEURSHIP

Mr. Vishal Sharma addressed students and faculties of GGI, Amritsar for awareness session on Entrepreneurship. The session focused on why and how to establish a business, as well as how to analyse and solve problems, make decisions, build a team, and lead. It also included a briefing on entrepreneurial resources, management principles, and enterprising & entrepreneurship. The session also featured a discussion on operations management and environmental analysis. The session focused on developing a company idea, doing a market survey, budgeting and forecasting, and creating a business plan. The participants were informed on business equilibrium, cost and profit management, and management information systems too.

ENTREPRENEURSHIP AWARENESS CAMP

Global Group of Institutes organised an entrepreneurship awareness camp in association with Indus Enterprises (TIE) and IKG Punjab Technical University on its campus. The awareness camp was organised to introduce entrepreneurial development programmes for students along with their academics that help students to explore innovative ideas and skills so as to channelise the same into accelerating industrialisation. The objective was to develop necessary entrepreneurial knowledge and skills among them, to impart basic managerial knowledge, understanding and to provide them post-training assistance, to develop and strengthen entrepreneurial quality and motivation among students, to help students in selecting the right type of project and products and to formulate the effective and profitable project. Around 80 students participated in this camp which was addressed by Vishal Sharma, Deputy General Manager, Bennett and Coleman. TNS

AWARENESS ON TRAFFIC RULES

Awareness on Traffic Rules was given by Mr. Rana in the Conference Hall, Pharmacy block was conducted. Everyone must be aware of the traffic signs and rules of the road. Traffic signs can provide crucial information that can help you and people around you stay safe, and knowing the rules of the road can help you avoid accidents. Important instructions and information about road conditions are provided by traffic signs. They not only aid in the smooth flow of traffic, but they also instruct and advise drivers on how to behave while on the road.

MORALITY LESSONS FROM RAMAYANA

All humans have the ability to evolve in a positive direction, according to humanistic therapy, unless their environment forces them to stray from the proper path. When the moral high ground is accidentally used for political, social, religious, or ethnic gain, it is demoralizing. Surprisingly, twisted morality is sometimes used to justify institutional tyranny. If the goal behind morality is tainted, the entire purpose of morality is undermined. Even with the best intentions, the consequences can be disastrous. The speaker explained that before deciding what is morally right or wrong, both aim and impact must be thoroughly addressed.

TREE PLANTATION

Planting trees isn't just something that should be done; it's a requirement, a pressing need of the hour. Tree planting is particularly crucial for protecting our environment from air pollution and global warming. Our young volunteers have been helping to organise tree-planting efforts to this goal. Planting trees isn't just a good idea; it's a necessity, a pressing need of the hour. Tree planting is especially important for preventing air pollution and global warming in our environment. Our youthful volunteers have been assisting in the organisation of tree-planting operations in order to achieve this goal.

CYCLOTHON RALLY

A cycling rally dubbed Cyclothon was organised in GGI, Amritsar to raise awareness about mental health issues. GGI, Amritsar collaborated with BSF to put on the event. Dr. Manohar Singh Saini, Campus Director, stated, “It always helps me to gain a better understanding of a problem, and then I have a greater appreciation for the difficulties. It becomes easier to hold meaningful discussions with friends, policymakers, and the general public as a result. It also aids in bringing attention to the cause and dispelling the stigma associated with recognising the problem. This campaign makes it easy for persons who are suffering from mental illnesses to seek assistance. Such efforts also aid in the gathering of survivors and the transmission of a message of solidarity to those who are still struggling alone.

BLOOD DONATION CAMP

Global Group of Institutes & NSS wing organized a mega Blood Donation Camp in association with Rotary Club Civil Lines in which students and staff of Global Group of Institutes Amritsar enthusiastically donated their blood and make this event a mega successful. During this blood donation camp, doctors from Govt. Guru Nanak Dev Hospital Blood Bank had made all necessary preparations at the venue hall, keeping in mind Donor Safety Measures. Every volunteer donor was given a physical checkup before donation by the Blood Bank Staff. All precautions were taken while testing the Blood group of the Students. This time around 130 units of Blood was donated by Students and Staff Members of the college. While interacting with the Blood Donors, Chairman Dr. B. S. Chandi said that Shortage of blood has created a mammoth problem in our Country. It is something which cannot be artificially produced or manufactured. Hence it can come from healthy donors. Vice Chairman Dr. Akashdeep Singh appreciated the enthusiasm of blood donors especially students and awarded certificates to all the donors.

SELF DEFENCE WORKSHOP

The Empowerment through Self-Defense Workshop for Girls & Boys of GGI, Amritsar is an interactive, skills-based workshop that educates participants about gender-based violence. It empowers students to recognise symptoms of potentially unsafe behaviour and encourages them to confidently own their space and bodies by using empowerment as a strategy.

CERVICAL AWARENESS PROGRAMME

Phulkari CAN aims to raise awareness about the importance of regular cervical screening for women (Pap smear tests). Women aged 18 to 69 are encouraged to schedule a Pap test every two years as part of the campaign. The goal of the campaign is to boost screening attendance, with an emphasis on women who do not test at all during the recommended two-year gap. They also informed us about HPV vaccines and the need to get vaccinated. Vaccination against HPV prevents new infections, but it does not treat existing infections or illnesses. This is why the HPV vaccine is most effective when administered prior to any HPV exposure.

SWACHH BHARAT ABHIYAN

Cleanliness is inextricably tied to the country's tourism and international interests. Increased tourism will result in increased revenue. It is critical for India to demonstrate excellent levels of hygiene and cleanliness in order to transform the global impression of our country. India has the second-largest population in the world. This mission is the government of India's largest social programme to improve hygiene standards. In many Indian cities, small towns, and rural areas, the initiative has aided in the cleanup of streets, roads, and infrastructure. High-level advocacy has aided in the reduction of open defecation and the promotion of the construction of household and community-owned toilets. As a result, the country's hygiene and sanitation standards have improved. Despite the fact that the situation has improved, much more has to be done in terms of sanitation and hygiene. Therefore NSS wing of GGI, Amritsar organized Safai Abhiyan in its campus.

VISIT TO GOVERNMENT MEDICAL COLLEGE

Students of Department of Medical Lab Sciences, Global Group of Institutes visited Govt. Medical College, Amritsar. Students got the opportunity to gain vital knowledge regarding various equipments, staining procedures, sample preparation and handling of automatic analysers. They visited various sections including histology & pathology lab, microbiology lab, cytology lab and haematology lab. Students were exposed to various different testing procedures and SOPs that are required to follow while working in a professional laboratory. Students obtained information regarding various dissection tools, procedure of preparing and cutting of sample tissues, preservation of human tissues and preparation of fluids for their preservation.

VISIT TO BLOOD BANK

Department of Medical Laboratory Sciences (MLS) visited Blood Bank at Guru Nanak Hospital Amritsar, where the students become familiar with different techniques such as Blood grouping, Cross Matching, Separation of blood components, Storage of blood and different methods of blood transfusion etc. Moreover Dr Adarsh Sahni Associate Professor Blood Bank explained well to students regarding the importance of blood donation.

VISIT TO BEST WESTERN MERRION HOTEL

Students of BTTM visited Best Western Merrion Hotel as a part of industrial visit. Students interacted with the Hotel professionals who provided them knowledge of various departments their functioning and requirement of the industry. Students find this visit very helpful as they gained first hand information regarding the functioning of the industry.

DENGUE AWARENESS RALLY

A Rally on Awareness of Dengue was organized in out-skirts of Global Group of Institutes, Amritsar. The causes and Symptoms of the disease were explained to the students. The preventive measures to limit its spread were also discussed. The session was full of immense knowledge and encouraged the students to take the steps to eradicate the factors responsible for breeding of mosquitoes.

MEDICINE MANAGEMENT

Insight of the fact that Pharmacist is the most easily available healthcare professionals, Department of Pharmacy in Global Group of Institutes organized a community programme on Medicine management in slum areas. The initiative really inspired the students to work in such areas to benefit the poor people.

WEED FREE CAMPUS

Global Group of Institutes initiated a drive to make its campus weed free. Large number of students became a part of this campaign to clean their campus. It proved to be highly beneficial as the surroundings became greener and cleaner. Moreover the students were also greatly motivated and inspired by the initiative taken in the campus promoting them to keep their surroundings and their homes and public places also neat and clean. The initiative by the campus inspired and ignited a great sense of responsibility in the student's.

PREVENTIVE MEASURES OF COVID-19

An awareness programme for community done by students on Preventive measures of Covid-19 was organized to create awareness among the people of the area. Students and teachers of Department of Pharmacy actively took part and explained the various different ways to prevent the spreading of Covid-19 with the help of posters. The discussions also encouraged the people to take vaccination. The awareness programme proved to be of a great help in minimizing the transmission of corona virus.

ROLE OF PHARMACIST IN COMMUNITY

The Department of Pharmacy has taken the initiative for making public aware about the Role of Pharmacist in community. The programme was to make aware the Pharmacy students and general public about the role and responsibilities of a pharmacist in regard to use of medicines. The basic duty of a pharmacist is to check prescriptions from physicians before dispensing the medications to the patients to ensure that the patients don't receive the wrong drugs or take an incorrect dose of medicine. Pharmacist is the bridge between doctors and patients who counsels advice to the patient to maximize the desired effect of the drugs and minimize the untoward adverse effects of the drug

BIOMEDICAL WASTE MANAGEMENT

An awareness programme on Biomedical Waste Management was held by Department of Medical Lab Sciences, Global Group of Institutes. The experts explained how the waste management can be started at domestic level. The healthy talk encouraged the students to dispose of the waste properly and keep their surroundings clean.

SMART HACKS

The goal of holding a quiz competition is to assess participants' knowledge both within and outside of academia, as well as to familiarize them with the potential of quizzes and the objectivity of the questions. The competition's major goal is to spark interest in subjects like engineering and management, as well as for competitive features. So, departments in the institute had organized quiz competition for its students. Smart Hack Online Programming Quiz in collaboration with IIT, Kanpur. Students were actively engrossed and participated with great enthusiasm. The event was a great success.

BLOOD DONATION CAMP

Global Group of Institutes organized a Blood Donation Camp with Rotary Club in which donors donated blood enthusiastically. Blood is the most vital component of human life. It is an inhuman bodily fluid that transports essential nutrients and oxygen to the cells. This time, the Institute donors, Faculty donated 200 units of Blood. While interacting with the Blood Donors, Chairman Dr. B. S. Chandi said that Shortage of blood has created a mammoth problem in our Country. It is something which cannot be artificially produced or manufactured. Hence, it can come from healthy donors. Vice Chairman Dr. Akashdeep Singh appreciated the enthusiasm of blood donors especially students and awarded certificates to all the donors.

COLLAGE MAKING COMPETITION

The activity outlines the view points of the participants on the activity and how it aided their thinking processes. How the teams discuss their collage reflections and the meaning they derived from the project, as well as how their thinking was impacted and the problems they faced, experienced, as well as their suggestions for future collage work. Two major points were concluded from the event: the idea of visual thinking as a way of freeing their minds, as well as the idea of the meta-cognition as a result of this activity.

SWITCH ROLE ACTIVITY

Activities that assist youngsters realise who they are & crucial in helping them develop and enhance their self-esteem. Students' social-emotional growth and development will be aided through role play, which includes acting out scenarios to solve problems, story creation through dramatic play, and practise coping with real-life events. Role play will equip students with the ability to deal with difficult social interactions, such as bullying, that may arise as they grow older.

DEBATE COMPETITION

Debate gives opportunities for life-changing, cognitive, and presentational skills development. Furthermore, debaters gain distinct educational benefits by learning and honing abilities that are well above what can be learned in any other context.

Debate, at the very least, allows students to see the effectiveness of using reasonable, well-thought-out arguments and persuasive evidence in action. It allows them to express their point of view using rhetorical eloquence. It instils a strong sense of calm and confidence among debaters. It teaches them how to conduct research, organise information, and deliver it in a captivating manner.

MANAGEMENT GAMES

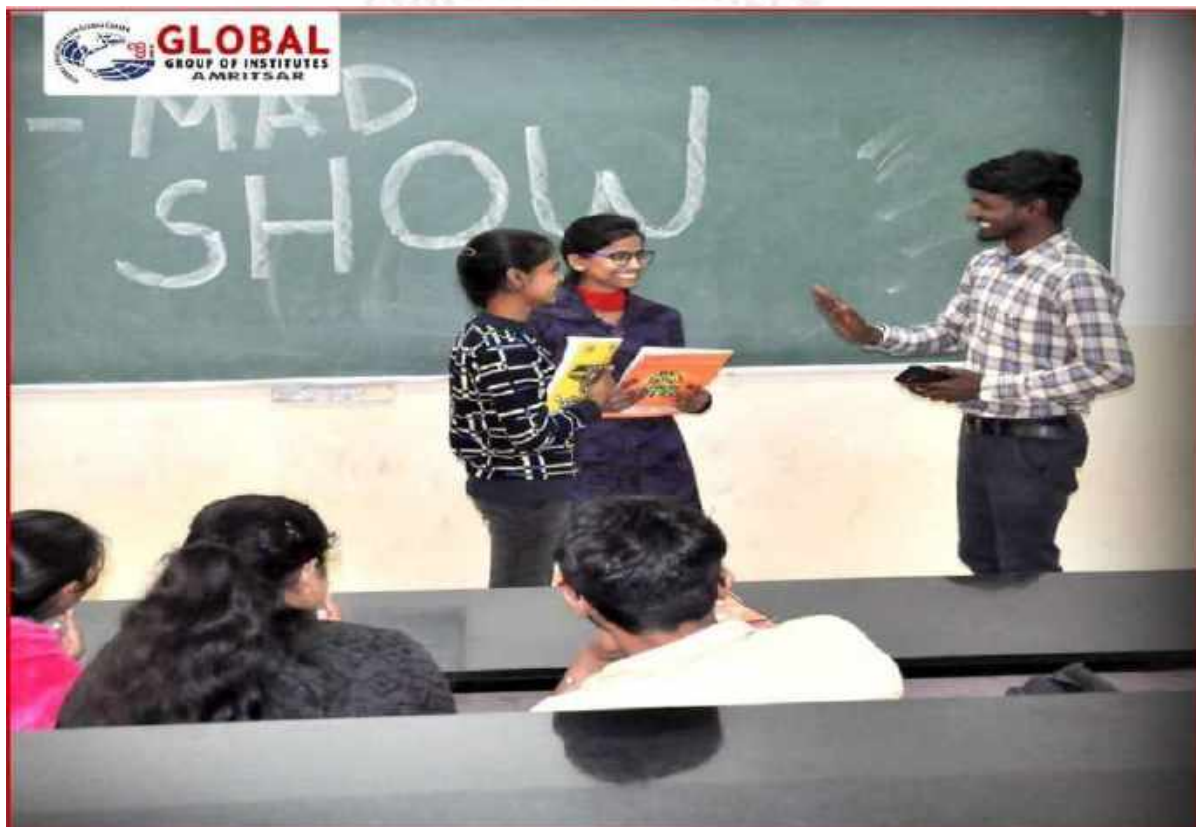

Though management games may appear to be similar to simulation techniques, candidates are presented with a business situation in which they must strategically think and come up with a viable and feasible solution. This fosters a candidate's decision-making process, planning ability, teamwork, time management, and leadership qualities by providing first-hand experience with situations that occur on a daily basis in the corporate world. These games demonstrate how the economics and business concepts kids learn in class may be used in real-life situations. This visualisation and claim process aids them in better grasping the information of their coursework.

AD-MAD SHOW

Advertising is a technique for attracting the attention of others. To acquaint students with promotional strategies in marketing through advertisements: GGI, Amritsar organized an Ad Mad Show competition for the college students. The goal of the AD-MAD competition was to educate children about the importance of values such as Team-work, Quick-Decision Making Discipline, and Integrity etc. in one's life.

The students were really enthusiastic in their participation. Students improved their talents in expressiveness, voice modulation, and dialogue delivery as a result of the competition. The majority of the students came up with original advertising concepts and well-written screenplays. It was a fantastic learning opportunity.

Business Quiz at IIM, Amritsar

The significance of business quizzes stems from the importance of understanding how to conduct business. A business quiz is a fun and educational approach to test your knowledge while also teaching you more about business, making you a better businessman/woman or entrepreneur.

A great strategy is at the heart of your company's success. Marketing, logistics, financing, sales, and other aspects of the plan are included, but not limited to. All of these elements will contribute to your business success.

GPL

Global Group of Institutes organized GPL in which cricket teams from different departments participated. Cricket is a thrilling sport to play and watch, and it is just as important as any other sporting event. The game also promotes teamwork, discipline, and character development, as well as highlighting leadership abilities. It promotes a sense of belonging to a group. The game of cricket is also a good specimen of division of work. Each player has a certain task to do. By playing cricket, one's grasp becomes stronger, one's eyesight sharper, one's stamina improves, and one's body and mind become more durable.

BASANT PANCHAMI

The occasion of Basant Panchami was celebrated by GGI staff and students that mark the advent of the spring season, and it is also celebrated to worship Goddess Saraswati. Yellow became the colour of the day, as students and staff came in beautiful yellow dresses. Competitions such as TUG-OF-WAR, KITE FLYING, MATKA PHOR etc. were organized on this occasion. Students and staff took part in events with full zeal and enthusiasm.

INTRODUCE YOURSELF

Department of Pharmacy organized the activity on Introducing Yourself. The objective of the event is to make students to interact with each other. Each student was allowed presenting their self for 5 minutes in front of class. Each student spoke regarding their identity, education, hobbies, qualities, limitation and aim as well .All faculty members were also to maintain the discipline and conduct the activity with very good way.

DEBATE COMPETITION

Debate includes public speaking, limited preparation and acting and interpretation and is a part of forensics competitions. These events are called individual events because they tend to be done by one person unlike debate which often includes teams. Opening with a relevant quote can help set the tone for rest of the speech. The main purpose of the event is that the students may share as well as discuss their views with each other clearing their doubts regarding the respective topic while giving them a broad view of the same.

POSTER MAKING COMPETITION

Department of BHMCT Organized Poster Making Competition. The main motive of this competition is to bring out the creative expression of the students and also to gauge their awareness quotient, Poster Making Competition for our students was organized on the themes Environment, My vision of Peace, India of My dreams, Today's wastage tomorrow's shortage, More renewable energy, More Life on a Planet etc.

TALENT SHOWCASE

The institution hosts a Talent Hunt show at the start of each semester, where talented newcomers demonstrate their abilities and are chosen to be trained for youth festivals. Every year, the talent show is one of the most anticipated events. This provides a great opportunity for young people to enhance their skills. It is an important event of the institute that strives to uncover freshmen's hidden skills and polish them to perfection. There are competitions in Fine Arts, Commercial Arts, Home Science, Literary and Theatrical events, Musical and Dance events, and so on. Students' overall growth is aided by such experiences. The start of the preparations for the national fest is marked by talent hunts, which are used to find fresh talents for the national fest UDAAN.

QUICK WRITERS

Department of Pharmacy organized an activity called Quick Writer for students. The quick writer is short written responses (2-10 min) to an open ended question or prompts. The strategy is used to develop writing fluency. It can also activate prior knowledge, helps students make connection, encourage critical thinking, reinforce vocabulary, and set a purpose for reading and understanding the concept.

CHART MAKING

Department of Pharmacy GGI, Amritsar coordinated an activity called Chart making for understudies. The entomb class diagram making rivalry assisted the understudies with getting know their colleagues on an unheard of level. The competition additionally assisted the understudies with finding their abilities in the field of craftsmanship and specialty. All understudies took an interest energetically in this competition. The aim of this competition was to develop a creative instinct among students. Participants were judged on different measures, like presentation, topic clarity, neatness, and speech.

GROUP DISCUSSION

Group Discussion is the activity which is essential in the academic, business, and administrative worlds. It is a methodical and planned speech interaction. Oral communication is used to exchange ideas, emotions, and feelings in this setting. The exchange of ideas takes place in a planned and systematic manner. The participants sit in a semi-circle, facing each other, and voice their opinions on the specified topic/issue/problem. Various departments organizes group discussion in GGI, Amritsar premises

TOURISM DAY

Department of HMCT has celebrated World Tourism Day to raise awareness among students about the importance of tourism and how it helps in the economic growth of the country or any region. During these different interesting activities were included to add flavor to celebration like Rangoli Competition, Baking Competition, Towel Art Competition etc.

SAFAI ABHIYAN

“A clean India would be the best tribute India could pay to Mahatma Gandhi on his 150 birth anniversary in 2019,” said Prime Minister of India, Shri Narendra Modi as he launched the Swachh Bharat Abhiyan Mission. On 2nd October 2014, Swachh Bharat Abhiyan was launched throughout length and breadth of the country as a national movement. The campaign aims to achieve the vision of a Clean India by 2nd October 2019. The mission focuses on sanitation and clean drinking water throughout the country. Students and staff members of NSS & Global Group of Institutes participated in the Cleanliness Drive to clean the work place and Campus as the part of Swachh Bharat Abhiyan.

TECH CHARADES

Department of Civil Engineering- John Smeaton Club had organized Tech Charades in college campus. Tech Charades is new and exciting version of Dumb Charades in which team has to enact the given technical term. The teams showed their best acting skills, quick decision making.

TREASURE HUNT

Treasure hunts are fun and technically sound as the game strengthens your staff through team building, quick decision etc. Competition encourages teams to work together or individuals to think creatively and build resourcefulness. Based on this idea Civil Engineering Department & Mechanical Engineering Department altogether organized Treasure Hunt in college premises. Clues were technical; based on apparatus, machines etc. from both the department.

ADMAD SHOW

The Ad Mad Show is an Advertising Making Competition that aims to highlight innovation in product and service marketing. The competition provides an opportunity for students to showcase their individual and collective abilities. Its goal is to teach pupils about marketing promotional methods through commercials. It consists of students' amusing and conceptual ad presentations. Students will act out numerous advertisement scripts and ideas that are applicable to many industries. The goal of holding this event is to provide participants a chance to test their creative abilities.

POSTER MAKING

Poster contests promote awareness of issues and encourage people to participate in activities. Posters are a vivid, colourful, and straight forward way to communicate community issues and events, and they are appropriate for use in public locations. Competitions for posters can both generate exposure and provide information. To pique the public's interest in a topic, disclose community issues, and promote awareness of a topic in a visually appealing, inclusive, and entertaining manner is the main motto of conducting Poster Making Competition in the campus by various departments.

JUST A MINUTE

The goal of the game is for competitors to speak for sixty seconds about a specific topic without repeating themselves, hesitating, or deviating. The game's flavour derives from the players' attempts to follow the rules and the banter amongst them. It's a simple tool that may be used by teachers at all levels to encourage listening skills, collaborative play, and vocabulary development. When traditional language instruction is complemented with fun games like Jam, the outcomes are quite positive in terms of increased class engagement and skill improvement.

\

COLLAGE MAKING

Department of Computer Science Engineering organized An Inter-department Collage Making Competition for the students of Engineering Department. Keeping the objective in mind the competition was held at Auditorium. The focus of this event is on experimenting imaginatively with collage to both help generate ideas and to also produce some complete works of art. A variety of collage techniques helps to enhance exploratory mind and imaginations. This event is suitable for anyone with an interest in art and in exploring new ways of generating ideas.

IDENTIFICATION OF DIFFERENT TREES

Department of Agriculture has conducted the activity on Identification of different trees to improve the practical knowledge of the students. The students of Agriculture have gain knowledge with full enthusiasm.

PAINTING COMPETITION

Department of Agriculture has conducted the activity on Painting competition on theme Environment which was held in college premises. The students of Agriculture have participated with full enthusiasm.

IRRIGATION MODEL

Department of Agriculture has conducted the activity on Demonstrate the irrigation model to improve the practical knowledge of the students. The students of Agriculture have gain knowledge with full enthusiasm. The winners were awarded with certificates.

INSECT ECOLOGY

Department of Agriculture has conducted the activity on Insect Ecology to provide information regarding beneficial and harmful insects. The students of Agriculture have participated with full enthusiasm.

IDENTIFICATION OF DIFFERENT CROPS

Department of Agriculture has conducted the activity to identify the different fruit crops and vegetable crops in the departmental vegetable nursery and fruit orchard to enhance the practical knowledge of the students.

BALANCED DIET CAMP

A camp on balanced diet was organised by students of NSS wing & GGI. The main motive of the camping was to make the people aware of balanced diet in their daily routine. The people were educated about well-balanced food items which include a wide variety of foods in the proper quantities to support their bodies and help them maintain their energy levels, stay motivated and healthy, and make the most of their camp experience. The expert in this event stressed for the use of certain foods which should be a part of a healthy diet such as Fruits, vegetables, legumes (such as lentils and beans), nuts, and whole grains that are good sources of fibre (e.g. unprocessed maize, millet, oats, wheat and brown rice).

INTERNATIONAL NATURE CONSERVATION DAY

To maintain the well-being of current and future generations, we must all play a role in protecting and conserving our environment as responsible human beings; so International Nature Conservation Day was observed, in the premises of GGI, Amritsar to recognise that a healthy environment is the cornerstone for a stable and healthy civilization. Here are some basic behaviors we can include into our everyday routine to help save the earth. There are numerous advantages to starting a home vegetable garden. It not only saves our money, but it also assures that we have access to fresh, unspoiled vegetables and fruits.

HERITAGE WALK

Department of BTTM department organized heritage walk for the students. The students were guided by Mr. Gurjinder Johal a tourist guide who showed and told students rich culture and old heritage of the Amritsar city. Heritage walk basically is 3 km guided walk in which students visited Old Akharas, Bungas, Havelis, Katras and Hatties.

SMALL SCALE INDUSTRY-MSME

The Department of Management organized a seminar on Small Scale Industry –MSME. In this seminar, the speaker encouraged the audiences present there to build career in the Start-Up field as Small industries have acquired a prominent place in the socio-economy development of the country. Moreover, the expert specified that educating and training of small-scale entrepreneurs has been identified as key determinants in the establishment, growth, and survival of businesses which ultimately reduce poverty levels. The speaker made the audience aware about serious problems most of which are associated with the smallness of small scale unit operations and discussed about the new government schemes available for Micro Small and Medium Enterprises (MSMEs) nowadays. The objective of this seminar was to motivate youth representing different sections of the society to consider self employment or entrepreneurship as one of the career options.

TREE PLANTATION DRIVE

In several regions of Punjab, rapid building and mushrooming housing colonies have resulted in the loss of green cover. The value of trees in purifying the air, lowering global warming, avoiding soil erosion, conserving water, maintaining the ecological balance, supplying natural resources such as medicines, habitats for faunal species, and delivering nutrients to the soil, among other things, is well understood. Unfortunately, the entire green cover of the country is dwindling, not just in Punjab but across the country, and as a result, pollution is rising at an alarming rate. Increased green cover through tree planting is one of the simplest yet most effective ways to address this imbalance.

AIDS AWARENESS CAMP

World AIDS Day on 1 December brings together people from around the world to raise awareness about HIV/AIDS and demonstrate international solidarity in the face of the epidemic. It has become one of the most widely recognized international health days and a key opportunity to raise awareness, commemorate those who have died, and celebrate victories such as increased access to treatment and prevention services. It was first observed more than 30 years ago, progress to prevent and treat HIV. HIV medicines are available to help people with HIV live long, healthy lives and prevent HIV transmission. Global Group of Institutes observed WORLD'S AIDS DAY. A number of activities were organized not only to mark the significance of maintaining good health but also for causes & prevention of AIDS. The people were made aware and educated to handle the situation if someone in the family suffers from the disease.

ABUSE OF DRUGS AND IT'S EFFECTS

An expert talk on Abuse of Drug and its effects was set up in the premises of Global Group of Institutes, Amritsar. Eminent speakers presented various important points related to the abuse of drugs and its effects. Speaker further elaborated about the various synthetic types of drugs used by the people and they are very much hazardous for the health of the people. Persons who take drugs spend almost all of their money on the drugs and intense cravings of drugs regularly. Consumption of synthetic and natural drugs has increased too much. Administration of drugs lead to the brain abnormalities slowed thinking and impaired memory; therefore, the talk proved to be helpful for the students and the faculty members.

ENTREPRENEURSHIP

Entrepreneurial seminar organised by the Department of Management had an aim to prepare future economy engineers to potentially develop their own entrepreneurial path. In addition to providing know-how needed for establishment of one's own enterprise, the speaker stressed to encourage entrepreneurial mindset of students. It is important for them to see entrepreneurship or establishment of their own enterprise as an opportunity, to further develop their intellectual self-confidence and to view engineering know-how as an entrepreneurial challenge. The basic aim of this seminar is to teach students independent decision making, entrepreneurial thinking, working in teams, team leading and assumption of responsibilities in their role as organizers. Furthermore, the seminar aims to show how to draw a business plan project with team efforts, become familiar with processes and procedures of starting up a new enterprise and gain knowledge necessary for business plan presentation to various audiences.

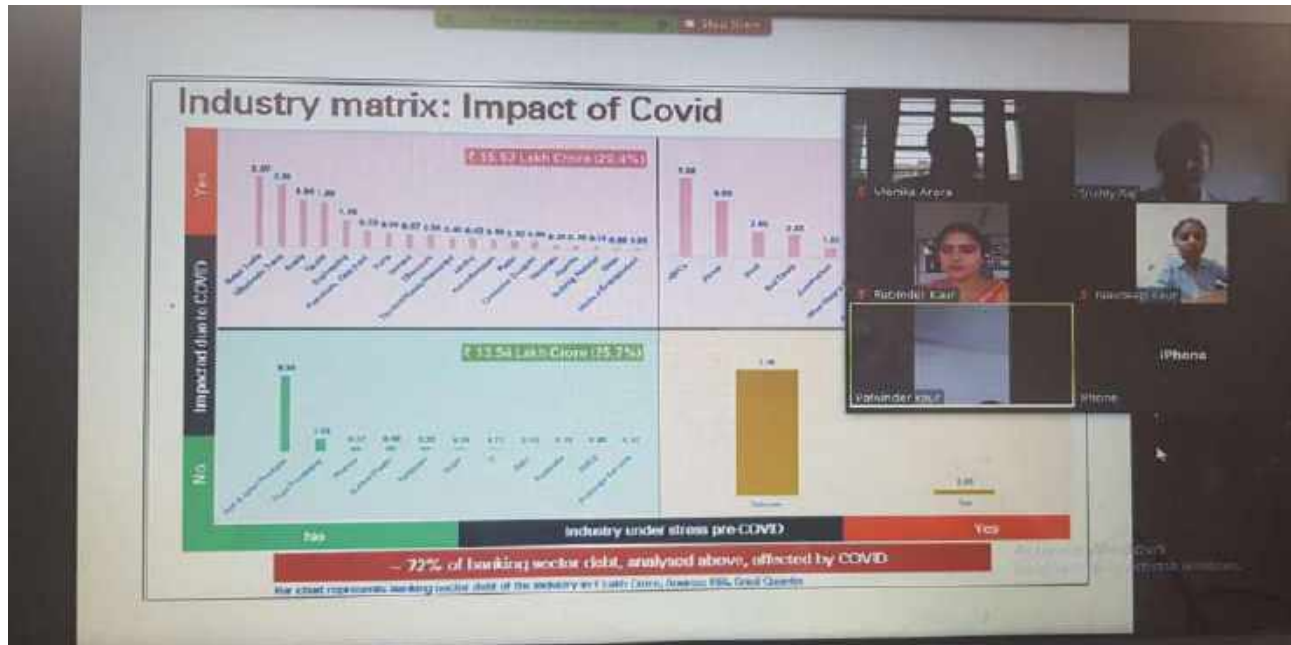

HYGIENE & SANITATION PROGRAMME

Sanitation contributes to family literacy in a beneficial way. According to a UNICEF research, a country's GDP can improve by 0.3 percent for every 10% rise in female literacy. As a result, sanitation contributes to society's social and economic development. Improved sanitation benefits the environment as well. Without basic hygiene, clean drinking water and good sanitation would not be enough to avoid illnesses. Hand washing is a simple habit that goes a long way toward preventing infections. In the absence of hygiene, the stored water supply could be a cause of infection. It is critical to raise public knowledge of the link between inadequate sanitation and hygiene and diseases in order to maximize the advantages of water, hygiene, and sanitation initiatives. In this regard, GGI Amritsar conducted Hygiene & Sanitation Programme with its faculties to create awareness about same at various levels of operations.

WEBINAR ON ASSESSING IMPACT OF COVID-19 ON THE BANKING AND FINANCE SECTOR AND THE WAY AHEAD

The Department of Management organized a webinar on Assessing Impact of Covid-19 on the Banking and Finance Sector and the Way Ahead. The expert, Dr. Jasveen Kaur, Head, UBS, GNDU stated that the primary vision of this webinar was to encourage study and research in the Banking and Finance Sector. Further the expert focused on disseminating ideas and promoting research through a large network of competition professionals such as regulators, academicians, practitioners, industry experts and students. She also gave Capacity Building initiatives in the discipline and guided the audience how to develop their research and advocacy skills in the field of banking and finance.

SWACHH BHARAT ABHIYAN

The Director, GIMET pushed its faculty & students to fulfil Mahatma Gandhi's dream of a clean and hygienic India while leading the public cleaning effort. The cleanliness initiative was taken at the premises of GIMET, Amritsar & was started by Director GIMET himself. All Hod's and Principal's by picking up the broom; to sweep up the filth and make Swachh Bharat Abhiyan a national movement, emphasised that people should not litter and should not allow others to litter. This year emphasis was laid on the mantra of 'Na gandagi karenge, Na karne denge.'

BLOOD DONATION CAMP

Director GIMET told about the importance of donating blood; which is a selfless act that can help save the lives of others. Blood donation comes in a variety of forms. Each variety aids in the treatment of various medical conditions. Every year, millions of individuals require blood transfusions. During surgery, some people may require blood. Others rely on it following an accident or because they suffer from an illness that necessitates the usage of blood components. All of this is made possible via blood donation. There is no substitute for human blood, which is used in all transfusions. Therefore, he encouraged the faculty & students to donate blood to protect life of someone.

TOURISM DAY

Tourism Day is celebrated to raise awareness of the importance of tourism and its social, cultural, political, and economic worth among the national & international community. It was celebrated in campus with great energy and various guests were invited who encouraged students to participate in such activities and spread tourism related information in the country. The expert told the students about how a tourist's soul is insatiable, as no matter how many places one travels, the desire to discover new terrains and every nook and cranny of the place never fades. Since the beginning of time, curious individuals have traveled to both known and undiscovered locations. The urge to learn about different locations and cultures has aided the world in coming together and effectively connecting. With the introduction of new technologies, travel has become more affordable, convenient, and simple. As a result, tourism has emerged as a significant business that contributes to the economy of a number of countries.

PAINTING COMPETITION

Painting is a two-dimensional visual language that expresses ideas and emotions while also creating aesthetic aspects. The shapes, lines, colours, tones, and textures of this language are used in a variety of ways to create sensations of volume, space, movement, and light on a flat surface. These pieces are blended into expressive patterns to reflect real or imagined situations. Many students express their ideas through their paintings on painting competition day.

GLOBAL PREMIER LEAGUE

Cricket has been a popular team activity for hundreds of years and is one of the world's most popular sports. GIMET, Amritsar set up Global Premier League each year for its students. The game helps developing various strengths in students along-with health. Although there are some who stand around, playing cricket requires being fit and strong, as well as having good hand-eye coordination and ball-handling skills. Sprinting between wickets and running to stop balls, as well as bowling and throwing, are all part of cricket.

SRISHTI

Fests provide a platform for students to showcase one's unique talents and are important in the holistic development of the personality of the students, providing a break from the monotonous routine of evaluation and academics. College festivals are one of the first places when students from many disciplines are brought together and asked to manage a huge event. This taste of real-life experience can help develop a wide range of skills and is an excellent tool for practical learning. SRISHTI a techno-cultural fest for school students was organized, where many students showcased their cultural and technical talents. At the end prize were distributed amongst the winners of various categories.

BODY BUILDING COMPETITION

Global Institute of Management and Emerging Technologies, Amritsar arranged Body Building Competition for its students. It was not only about the body in this sport. More importantly, this fantastic physical activity is also good for one's health. Bodybuilding results in a fit mind as well as a fit body. The term bodybuilding says it all. It is very simple to comprehend the definition of this word and the nature of this sport. Bodybuilding is the ideal sport for getting a proportionately proportioned and fit body.

GLOBAL FOOTBALL LEAGUE

Football is a simple, all-encompassing sport. But, in addition to being a ball sport, it's also an activity that improves your endurance and aerobic fitness due to the constant running. Football skills and moves are physical workouts that help you tone up and improve your coordination. Football, as a team sport, also has numerous mental health benefits. So keeping all these things in mind, GIMET had organized Global Football League for its students. All students energetically participated in the event and prize was distributed at the end.

TREE PLANTATION

Trees are really important. They provide oxygen, store carbon, stabilise the soil, and provide life to the world's fauna as the largest plants on the earth. They also give us with tools and shelter materials. Trees are not only necessary for existence, but they also serve as a link between the past, present, and future as the longest-living species on the planet. Woodlands, rainforests, and trees in urban contexts, such as parks, must be protected and managed responsibly all over the world. So, faculty & students of GIMET were encouraged to plant trees not only in the premises but also in their surroundings too. Chairman, Vice-Chairman in-front of all other dignitaries took initiative to plant first tree in the campus.

Spirit of Voluntarism and Women Safety

Participants who wish to work for this programme must be self-motivated and patient. They would have to adapt to the circumstances and share their knowledge with these women. Volunteering for women in India is critical because it has the potential to transform the gender dynamic. The ultimate goal of this volunteer programme in India is to raise their awareness of global trends and assist them in learning a skill that would enable them to become self-sufficient. This initiative would be fulfilling and rewarding for volunteers interested in the cause of women's empowerment and making a difference in their lives.

INDUCTION PROGRAMME

One of the most difficult transitions in a student's life is from high school to university/college life. When new students enter a school, they bring with them a variety of ideas, backgrounds, and preparedness. They are thrust into an alien setting, and many of them have no prior experience with a university or college. As a result, welcoming new students to Higher Education and preparing them for their new position is a vital duty. So keeping this in mind Global Institute of Management and Emerging Technologies conducted Induction programme for newly admitted students. In the programme, different speakers briefed the students about their branches in which they are admitted particularly and told them about various rules & regulations of the Institute. The students Induction programme included socializing, associating, governing & experiencing aspects which they will undergo in their near future.

TEACHER'S DAY

A teacher contributes to society by instructing and guiding a large number of students through various phases of development. A teacher has several functions in the life of a pupil. The teacher is a philosopher who educates his or her students on the ways of the world. Teachers really care about their pupils' best interests and perform a vital role in society. Teachers have the ability to make or ruin future generations; such is their power. As a result, Global Institute of Management and Emerging Technologies take this opportunity to recognise and appreciate the contributions of teacher's. Teacher's Day, which occurs once a year on September 5th, is a wonderful opportunity for students & organization to dedicate a day to them. So students participated in various activities and express their gratitude on Teacher's Day.

BLOOD DONATION CAMP

The goal of a blood donation camp is to find a suitable donor whose blood is safe for recipients and who will not be injured in any way by donating blood. In Global Group of Institutes, Amritsar blood donation programme is conducted in three phases: pre-camp, camp, and post-camp. Regularly holding blood donation camps will boost the stock of blood units in the blood bank, which is necessary for the health-care system to function properly. Chairman of the Institute had encouraged student and faculty donors that donating blood provides an unknown person with a second chance at life. Donors of blood become members of an elite group dedicated to alleviating human suffering. Donating blood is a spiritual experience. Three lives are saved by one unit of blood. Donating blood has been shown to lower the risk of heart disease while also stimulating the production of red blood cells. Human blood is the only thing that can replace it. It can only be obtained from a kind blood donor. So large number of students and faculties had participated in the Blood Donation Camp and extended their part for this noble cause.

DRUG AWARENESS CAMP

Nowadays the consumption of synthetic and natural drugs has increased too much in the society. An effort was made by the Global Institute of Management and Emerging Technologies just to make the society aware about administration of drugs and its effects such as; brain abnormalities, slowed thinking and impaired memory. For the welfare of society, a team from institutes visited the nearby village to conduct a session on 'Abuse of Drug and its Effects'. The speaker in this session elaborated about the various synthetic types of drugs used by the people and told that how it is very much hazardous for the health of the people. The speaker further told about various important points related to the abuse of drugs and its effects. Some of the listeners present there were guided that how they can prevent themselves to spend almost all of their money on the drugs and how the intense cravings of drugs regularly can be ignored. Therefore, the talk proved to be helpful for the society and people felt motivated.

11th km stone, Sohian Khurd, Amritsar-Batala Road, Amritsar.
